

# SonicWALL PRO 3060 and PRO 4060

## INTERNET SECURITY APPLIANCES

- ▷ Powerful deep packet inspection firewall
- ▷ High-performance, multi-service network security platforms
- ▷ WAN redundancy, hardware failover and load balancing
- ▷ Comprehensive central management powered by award-winning SonicWALL Global Management System

Today's highly connected organizations move vast amounts of business-critical data across networks. For organizations, the value of this data is extraordinary – as is the need to move it quickly, reliably and securely. In order to maintain and safeguard business continuity, these organizations must employ advanced features such as deep packet inspection technology, secure VPN access, highly reliable network continuity, powerful performance and flexible, scalable configurability.

The SonicWALL® PRO Series, featuring the PRO 3060 and PRO 4060, provides complete business continuity and multi-layered security for even the most complex networks. Powered by SonicWALL's next-generation SonicOS operating system and a dedicated, high-performance architecture, the PRO 3060 and PRO 4060 deliver enterprise-class firewall throughput and hardware-accelerated VPN concentration. Unbeatable price/performance characteristics make the PRO Series the ideal solution for companies that need rock solid network protection coupled with fast, secure VPN access for even the most complex remote connectivity environments.

The PRO 3060 and PRO 4060 integrate SonicWALL's intrusion prevention technology, which features a configurable, ultra-high performance deep packet inspection firewall that delivers increased attack prevention capabilities over those supplied by traditional stateful packet inspection firewalls. This powerful combination protects users and critical network resources from the dynamic, sophisticated threats that put today's corporate networks at risk.

Standard on the PRO 4060 and an optional upgrade on the PRO 3060, SonicOS Enhanced delivers powerful business continuity and flexibility features including ISP failover, load balancing, hardware failover and policy-based NAT. Six configurable 10/100 Ethernet interfaces allow administrators to create multiple LANs, WANs, WLANs, DMZs and custom-defined zones. The PRO Series also integrates seamlessly with the SonicWALL suite of security services, including Intrusion Prevention Service, Content Filtering Service and gateway-enforced Complete Anti-Virus, for true multi-layered protection and productivity. Combined with an innovative Web interface, the PRO 3060 and PRO 4060 are the ultimate choices for robust internal and external security, network configuration flexibility and ease-of-use.

The PRO Series can be easily managed remotely as part of a multi-firewall and VPN environment through a Web interface or using SonicWALL's industry-leading Global Management System (GMS). This gives network administrators a powerful set of tools for rapid deployment, configuration, and management of global security policies from a central location.

The SonicWALL PRO 3060 and PRO 4060 deliver the most powerful, flexible, cost-effective network security platform available, maximizing uptime, safeguarding vital network assets and infrastructure, and ensuring complete business continuity.

With industry-leading firewall/VPN capabilities, the PRO 3060 and PRO 4060 comprise a complete enterprise-class security platform, and integrate with the SonicWALL security upgrades shown here. For details Go to [www.sonicwall.com](http://www.sonicwall.com), or call +1 408-745-9600.

## SONICWALL PRO 3060 AND PRO 4060 FEATURES AND BENEFITS

### SonicOS Standard Delivers:

**Powerful Deep Packet Inspection Firewall.** The PRO 3060 and PRO 4060 feature a deep packet inspection firewall that protects against malicious attacks at all layers of the network, whether they originate from outside or from internal sources.

**Comprehensive Multi-layered Security.** The PRO 3060 and PRO 4060 provide everything needed for secure connectivity by integrating support for SonicWALL's portfolio of security services, including Intrusion Prevention Service, Complete Anti-Virus and Content Filtering Service, without the need to integrate separate devices or software packages.

**Streamlined GUI.** The PRO 3060 and PRO 4060 feature an innovative Web interface making them simple to set up in any network environment.

**High-performance Architecture.** The PRO 3060 and PRO 4060 include a powerful processor and cryptographic accelerator to deliver the best possible performance with 300+ Mbps stateful packet inspection firewall and 75 Mbps (PRO 3060) or 190 Mbps (PRO 4060) 3DES/AES VPN throughput.

**Hardware Encryption Support.** Both models reflect SonicWALL's commitment to open security standards by including hardware-based acceleration support for the 3DES and AES encryption algorithms.

### Standard on PRO 4060 and Optional Upgrade on PRO 3060, SonicOS Enhanced Adds:

**Integrated Wireless LAN Services.** The PRO 3060 and PRO 4060's distributed WLAN capabilities allow easy integration of advanced WLAN services within existing network and security architectures. Utilizing SonicWALL SonicPoints, organizations can offer wireless guest services, AP-to-AP roaming, wireless intrusion detection and more.

**WAN ISP Failover and Load Balancing.** The PRO 3060 and PRO 4060 offer the ability to designate one of the user-assigned ports as a secondary WAN port that can be used in "active-passive" configuration, providing a highly efficient method for distributing or load sharing outbound WAN traffic.

**Hardware Failover.** Should the active unit fail, the passive unit assumes responsibility for forwarding traffic, offering greater reliability and redundancy.

**Multiple Interfaces per Security Zone.** Network administrators can group multiple physical interfaces on the PRO 3060 and PRO 4060 into logical "zones" for ease-of-management and flexibility. This provides tremendous flexibility, scalability and added internal security when deploying SonicWALL firewalls in various network topologies.

**Multiple Configurable Interfaces.** With six configurable 10/100 Ethernet interfaces, both models allow network administrators to create additional WANs, LANs, WLANs, DMZs and custom-defined zones for greater network configuration flexibility and internal security.

**Object/Policy-based Management.** The PRO 3060 and PRO 4060 provide the ability to define an object such as a user group, network, service or interface. When security policies change, the administrator can modify the pre-defined object and propagate the changes instantly without redefining rules. This enables businesses to implement and manage security policies easily and consistently.

**Policy-based NAT.** In addition to NAT (many-to-one) functionality, the PRO 3060 and PRO 4060 expose control of NAT policies to administrators for one-to-one NAT, many-to-many NAT, one-to-many NAT, inbound Port Address Translation (PAT), flexible NAT (for overlapping IP addresses), as well as NAT policies on selective source/destination/source translations. The result is greater control and flexibility to support and manage various NAT requirements.

## SONICWALL PRO 3060 AND PRO 4060 TECHNICAL SPECIFICATIONS

<b>Processor:</b>	2 GHz Intel Main Processor and Cryptographic Accelerator	<b>Concurrent Connections:</b>	PRO 3060: 128,000 PRO 4060: 500,000	<b>Certifications:</b>	FIPS 140-2
<b>RAM:</b>	256 MB	<b>VPN Performance:</b>	PRO 3060: 75 Mbps (3DES/AES) PRO 4060: 190 Mbps ((3DES/AES))	<b>Major Regulatory Compliance:</b>	EMC: FCC Class A, ICES Class A, CE, C-Tick, VCCI, BSMI, MIC, NOM Safety: UL, cUL, TUV/GS
<b>Flash Memory:</b>	64 MB Secure Compact Flash	<b>Site-to-Site VPN Policies:</b>	PRO 3060: 500/1,000* PRO 4060: 3,000	<b>Environment:</b>	Temperatures 40-105° F, 5-40° C Humidity 10-90% non-condensing
<b>Interfaces:</b>	3/6* 10/100 auto-sensing Ethernet (1) WAN Port, LEDs (1) LAN Port, LEDs (4) Configurable Ports, LEDs (1) Serial Port	<b>Bundled VPN Client Sessions:</b>	PRO 3060: 25 (500 Max.) PRO 4060: 1,000 (3,000 Max.)	<b>Dimensions:</b>	17.00 x 13.00 x 1.75 inches (43.18 x 33.02 x 4.45 cm)
<b>Stateful Throughput:</b>	300+ Mbps	<b>Bundled Software:</b>	ViewPoint reporting suite (PRO 4060)	<b>Weight:</b>	13.00 lbs (5.90 kg)
<b>Firewall Nodes:</b>	Unlimited	<b>Standards:</b>	TCP/IP, UDP, ICMP, HTTP, HTTPS, IPSec, ISAKMP/IKE, SNMP, DHCP, PPPoE, L2TP, PPTP, RADIUS	<b>LEDs:</b>	Status (Power, Test, Alarm) LAN (Link, Activity) WAN (Link, Activity) DMZ (Link, Activity)
		<b>Certifications (Pending):</b>	ICSA Firewall 4.0, ICSA IPSec VPN 1.0d, EAL-2	<b>Power Input:</b>	100-240 VAC, 60-50 Hz, 1.5 A
				<b>Power Consumption:</b>	143 W
				<b>Heat Dissipation:</b>	530 BTU

\*Requires SonicOS Enhanced firmware upgrade

- 1) Serial Console Port
- 2) Power, Test, Alarm
- 3) LAN Port, LEDs
- 4) WAN Port, LEDs
- 5) Configurable Port
- 6-8) Additional Configurable Interfaces\*

## SONICWALL PRO 3060 AND PRO 4060 PART NUMBERS, SERVICE & SUPPORT

01-SSC-5365 SonicWALL PRO 3060 (US/Canada)  
01-SSC-5366 SonicWALL PRO 3060 (International)  
01-SSC-5368 SonicOS Enhanced Firmware Upgrade for PRO 3060  
01-SSC-5380 SonicWALL PRO 3060 SonicOS Enhanced Firmware Upgrade with 1-Yr 8x5 Support  
01-SSC-3060 SonicWALL 8x5 Support for PRO 3060  
01-SSC-3061 SonicWALL 24x7 Support for PRO 3060  
01-SSC-3064 SonicWALL International Support for PRO 3060

01-SSC-5370 SonicWALL PRO 4060 (US/Canada)  
01-SSC-5371 SonicWALL PRO 4060 (International)  
01-SSC-3063 SonicWALL 24x7 Support for PRO 4060  
01-SSC-3065 SonicWALL International Support for PRO 4060

## SONICWALL VALUE-ADDED SECURITY SERVICES

SonicWALL Internet security appliances integrate seamlessly with an expanding array of value-added security services to provide a comprehensive security solution.

For more information on these SonicWALL security services, please visit our Web site at [www.sonicwall.com/products/vpnsoft.html](http://www.sonicwall.com/products/vpnsoft.html).
